Society of Infectious Diseases Pharmacists (SIDP)

- Non-profit organization comprised of pharmacists and other healthcare professionals involved in patient care, teaching, research, drug development, and federal regulation dedicated to promoting appropriate antimicrobial use
- Provides education, leadership, and advocacy in all aspects of the treatment of infectious diseases
- Committed to excellence in infectious diseases pharmacotherapy

The mission of the Society is to:

- Advance the subspecialty of infectious diseases pharmacotherapy in clinical pharmacy
- Promote, by way of scientific and professional communication, the contributions and role of pharmacists in the management of infectious diseases
- Develop interdisciplinary relationships between the Society and other professional and regulatory organizations involved in the prevention and management of infectious diseases
- Encourage, develop, and maintain standards of practice for individuals with expertise in the pharmacotherapy and management of infectious diseases
- Support and promote research addressing the epidemiology, treatment, and prevention of infectious diseases; the appropriate use of antimicrobials; and the prevention and management of antimicrobial resistance

- SIDP was established in 1990
- Membership – 474 and growing
 - Active - 302

Recognition Awards Committee

- Chair: Nathan Wiederhold
- Vice Chair: Vanthida Huang
- Board Liaison: Paul Gubbins
- Members: Jarrett Amsden, Lynne Fehrenbacher, Renata Smith, Shellee Grim, Ronald Hall, Anthony Nicasio, Pramodini Kale-Pradhan, John Lock, Chris Frei, Nimish Patel

Recognition Awards Committee

- Four award categories:
 - Clinician of the Year
 - Young Investigator of the Year
 - Impact Paper of the Year
 - Distinguished Service Award

Clinician of the Year

The purpose of this award is to:

- Recognize an SIDP member who has developed an innovative and/or excellent clinical practice site

Areas of contribution to infectious diseases pharmacotherapy may include, but are not limited to, development of innovative services, documentation of benefits, and methods of promoting the safe, effective, and rational use of anti-infective agents.

Clinician of the Year

Susan Davis, Pharm.D.
Henry Ford Hospital, Detroit, MI

Congratulations!!!!!!

Young Investigator of the Year

The purpose of this award is to:

- Recognize past research accomplishments
- Reward young investigators who show research promise in the broad area of infectious diseases

Preference is given to independent research work conducted after completion of terminal education and training. Nominees are evaluated on research funding, publication record, leadership, teaching and honors or awards received for their research.

Young Investigator of the Year

Marc Scheetz, Pharm.D., M.Sc.
Midwestern University

Congratulations!!!!!!

Impact Paper of the Year

The purpose of this award is to:

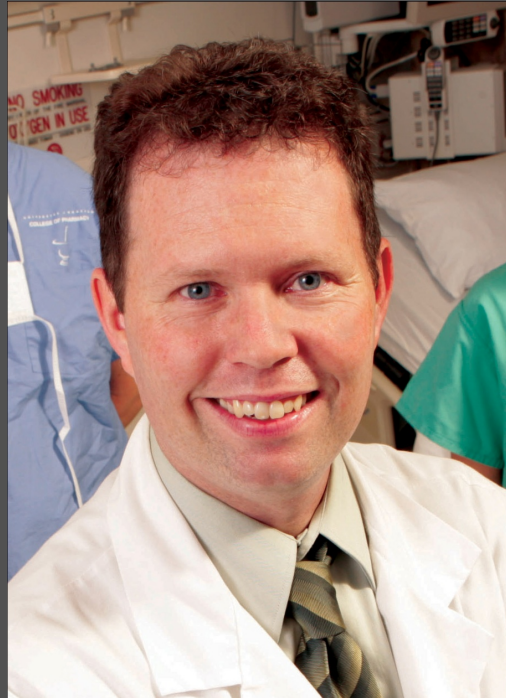

- Recognize a significant contribution to the peer-reviewed literature in infectious diseases pharmacotherapy by an active or associate SIDP member

Nominees are evaluated primarily based on their contribution to the paper and the impact or significance of the publication.

Impact Paper of the Year

Kevin Garey, Pharm.D., M.S.
Texas Medical Center

University of Houston, College of Pharmacy

Garey KW, et al. A randomized double-blind placebo-controlled pilot study to assess the effect of rifaximin to prevent recurrent diarrhea in patients with *Clostridium difficile* infection. J Antimicrob Chemother 2011;66:2850-5.

In Memory

Gita Wasan Patel, Pharm.D., BCPS

Gita Patel Best Practice Recognition Award

The purpose of this award is to:

- Recognize a clinical pharmacist who has implemented and documented the impact of an innovative or collaborative “best practice” initiative to improve care of patients with infectious diseases

The areas of best-practice may include, but are not limited to, development of innovative services to deliver quality care or implementation of guideline or pathways. Research should include documentation and preferably publication of benefits and highlight reliable methods of delivering optimal, effective, and evidence-based use of anti-infective agents.

Preference will be given to pharmacists providing patient care in the community setting and to those who do not receive salary support dedicated to research. Previous formal infectious diseases training is not a requirement.

- Sponsored by Cubist
- Special thanks to Peggy McKinnon, Holly Hoffman-Roberts, and John Mohr!

“Changing of the Guard”

Outgoing SIDP Officers

Paul O. Gubbins **Sharon Erdman** **Elizabeth Dodds-Ashley**
