Society of Infectious Diseases Pharmacists (SIDP)

- Non-profit organization comprised of pharmacists and other healthcare professionals involved in patient care, teaching, research, drug development, and federal regulation dedicated to promoting appropriate antimicrobial use
- Provides education, leadership, and advocacy in all aspects of the treatment of infectious diseases
- Committed to excellence in infectious diseases pharmacotherapy

The mission of the Society is to:

- Advance the subspecialty of infectious diseases pharmacotherapy in clinical pharmacy
- Promote, by way of scientific and professional communication, the contributions and role of pharmacists in the management of infectious diseases
- Develop interdisciplinary relationships between the Society and other professional and regulatory organizations involved in the prevention and management of infectious diseases
- Encourage, develop, and maintain standards of practice for individuals with expertise in the pharmacotherapy and management of infectious diseases
- Support and promote research addressing the epidemiology, treatment, and prevention of infectious diseases; the appropriate use of antimicrobials; and the prevention and management of antimicrobial resistance

SIDP sign-on

- **Core Principles for a limited population antibacterial drug (LPAD) pathway with IDSA & Pew Charitable Trusts**
 - This new law would establish a pathway to allow patients quicker access to potentially life-saving antibiotics by requiring fewer patients in clinical trials

SIDP sign-on

- **Adequate Data on Animal Use of antibiotics with Pew Charitable Trusts**
 - Letter to President Obama requesting moving forward with stalled U.S. FDA actions to reduce use of antibiotics in food animal production
 - Establish tracking mechanisms
 - Reauthorize Animal Drug User Fee Act (ADUFA)

SIDP sign-on

- **Antibiotic Use in Animals with Pew Charitable Trusts**
 - **Several statements recommending changes to the Veterinary Feed Directive (VFD) to provide more veterinary oversight of antibiotic use in food animal production**

SIDP sign-on

Revised Strategies to Address Antimicrobial Resistance (STAAR) Act

- Replaces prior STAAR language to establish a joint CDC/NIH surveillance and research network with language to codify NIH's newly launched Clinical Trials Network on Antibacterial Resistance and language to establish a CDC surveillance and laboratory network (building on existing programs) to monitor resistance and outbreaks
- Directs CDC to intensify and expand efforts to collect data on human antibiotic use and resistance, and to pursue development of antibiotic use quality measures including for antimicrobial stewardship
- Directs CDC to publish a report on resistance trends and antibiotic use every two years
- Authorizes CDC to work with state health departments to implement prevention collaboratives designed to interrupt and prevent the transmission of significant antibiotic resistant pathogens being transmitted across healthcare settings
- Authorizes CDC to intensify and expand academic public health partnerships through the work of CDC's Prevention Epi-Centers

SIDP sign-on

- **Provided a letter to support \$40 million for CDC's Advanced Molecular Detection and Response to Infectious Diseases Outbreaks (AMD) initiative**

SIDP no sign-on

- **Keep Antibiotics Working rebuttal to the FDA statement on antibiotic resistance in retail meat**
 - **Two different statements**

SIDP representation / other activities

- Participation in teleconference with the press, CDC and RWJF on a joint statement on antibiotic resistance
- The Pew Meeting on *A New Pathway for Antibiotic Innovation: Exploring Drug Development for Limited Populations*
 - Steve Ebert was an invited speaker and Katie Suda was invited to participate
- Attendance at Capital Hill Briefing on antibiotic resistance

SIDP representation

- **Notified membership regarding need to urge Congress to support \$32 billion for NIH in 2014**
- **Committee members reviewed key organization's Web sites for policy related news concerning ID**
 - **ACCP, ASHP, IDSA, SHEA, CMS, FDA, HRSA, APhA, CDC, RWJF, APHA, AACP, NIH, AAHIVM**

SIDP PAC Outreach

- Reached out to APhA, ASHP, ACCP, SHEA, IDSA
 - Committee activities
 - SIDP mission and composition
- Collected conflict of interest statements from all committee members

Membership Committee

- Chair: Lynne Fehrenbacher

Recognition Awards Committee

- Four award categories:
 - Clinician of the Year
 - Young Investigator of the Year
 - Impact Paper of the Year
 - Gita Patel Best Practice Recognition Award

Clinician of the Year

The purpose of this award is to:

- Recognize an SIDP member who has developed an innovative and/or excellent clinical practice site

Areas of contribution to infectious diseases pharmacotherapy may include, but are not limited to, development of innovative services, documentation of benefits, and methods of promoting the safe, effective, and rational use of anti-infective agents.

Clinician of the Year

Brian Potoski, Pharm.D.

Young Investigator of the Year

The purpose of this award is to:

- Recognize past research accomplishments
- Reward young investigators who show research promise in the broad area of infectious diseases

Preference is given to independent research work conducted after completion of terminal education and training. Nominees are evaluated on research funding, publication record, leadership, teaching and honors or awards received for their research.

Young Investigator of the Year

Warren E. Rose , Pharm.D.

Impact Paper of the Year

The purpose of this award is to:

- Recognize a significant contribution to the peer-reviewed literature in infectious diseases pharmacotherapy by an active or associate SIDP member

Nominees are evaluated primarily based on their contribution to the paper and the impact or significance of the publication.

Impact Paper of the Year

Amit P. Pai, Pharm.D.

- Pai MP. Drug dosing based on weight and body surface area: mathematical assumptions and limitations in obese adults. *Pharmacotherapy* 2012;32(9): 856-868.

Gita Patel Best Practice Recognition Award

The purpose of this award is to:

- Recognize a clinical pharmacist who has implemented and documented the impact of an innovative or collaborative “best practice” initiative to improve care of patients with infectious diseases

The areas of best-practice may include, but are not limited to, development of innovative services to deliver quality care or implementation of guideline or pathways. Research should include documentation and preferably publication of benefits and highlight reliable methods of delivering optimal, effective, and evidence-based use of anti-infective agents.

Preference will be given to pharmacists providing patient care in the community setting and to those who do not receive salary support dedicated to research. Previous formal infectious diseases training is not a requirement.

- Sponsored by Cubist

Gita Patel Best Practice Recognition Award

Natalie Boyd, Pharm.D.
