SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

## 2016 Annual Meeting

June 16, 2016

Boston, Massachusetts

Jason C. Gallagher, PharmD, FCCP, FIDSA, BCPS

President

@JGPharmD

#SIDP2016

# Society of Infectious Diseases Pharmacists

- Non-profit organization comprised of pharmacists and other healthcare professionals involved in patient care, teaching, research, drug development, and federal regulation dedicated to promoting appropriate antimicrobial use
- Provides education, leadership, and advocacy in all aspects of the treatment of infectious diseases
- Committed to excellence in infectious diseases pharmacotherapy

# Our Mission

- **Advance** the subspecialty of infectious diseases pharmacotherapy in clinical pharmacy
- **Promote**, by way of scientific and professional communication, the contributions and role of pharmacists in the management of infectious diseases
- **Develop** interdisciplinary relationships between the Society and other professional and regulatory organizations involved in the prevention and management of infectious diseases

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Our Mission

- Encourage, develop, and maintain standards of practice for individuals with expertise in the pharmacotherapy and management of infectious diseases
- Support and promote research addressing the epidemiology, treatment, and prevention of infectious diseases; the appropriate use of antimicrobials; and the prevention and management of antimicrobial resistance

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Membership

- SIDP was established in 1990
- Membership: 958 and growing
  - Active – 443
  - Associate - 353
    - Current Associate- 104
    - Certificate Program Finishers - 249
  - Trainee-Associate - 162

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Benefits of Membership

- Professional representation and advocacy
- Professional development
- Research and practice
  - Research awards
  - Residency support
- Educational and publication opportunities
- Recognition awards

# Board of Directors 2015-2016

# SIDP

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

Jason Gallagher, President

Melinda Neuhauser, President-Elect

David Bearden, Past-President

Sandy Estrada, Secretary-Treasurer

Craig Martin, Member-at-large

Vincent Tam, Member-at-large

# Agenda

<b>11:00</b>	Registration
<b>12:00</b>	President's Welcome & Business Meeting
<b>12:45</b>	Management of MDR Gram-negative infections and the role of newer beta-lactam antibiotics Speaker: James Lewis, PharmD, FIDSA
<b>1:30</b>	Trials and tribulations of antimicrobial stewardship in the SOT population Speaker: Monica V. Golik Mahoney, PharmD, BCPS (AQ ID)
<b>2:15</b>	Break
<b>2:45</b>	FARMaceuticals: Antibiotic use in animals and agriculture Speaker: Emily Heil, PharmD, BCPS, AAHIVP

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Agenda

<b>3:15</b>	Antimicrobial research and development in the industry: Reestablishing the antimicrobial pipeline Speaker: John Mohr, PharmD
<b>4:00</b>	Keynote Lecture: Antibiotic resistance and stewardship: Where are we and where must we go Speaker: Brad Spellberg, MD, FIDSA, FACP
<b>5:00</b>	<b>A Conversation with Bill Gates: Bringing the Frontiers of Science to the Front Lines of Development</b> ASM Keynote Session Boston Convention Center
<b>5:00</b>	<b>Break, Exhibitor Hall</b> Aloft Hotel
<b>6:30-8:30</b>	Reception, Recognition and Awards Presentation, Introduction of 2016-17 Board of Directors

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

**2016 Annual Meeting Sponsors**

**Merck**

**Tetraphase**

**T2 Biosystems**

**The Medicines Company**

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Priorities

## 2015-16

- **Grow** SIDP's influence in government affairs and the political process
- **Expand** and **protect** the role of the ID pharmacist in antimicrobial stewardship
- **Increase** the depth and number of collaborative relationships with other organizations
- **Shape** BPS certification in infectious diseases pharmacotherapy into something meaningful

# Results

## 2015-16

- Grow SIDP's influence in government affairs and the political process
  - Member of S-FAR and NQF
  - 10 letters signed on by PAC
  - 6 letters/public comments written independently by SIDP
  - Position statement development and publications (2)

# Results

## 2015-16

- Expand and protect the role of the ID pharmacist in antimicrobial stewardship
  - Position statement on “The Essential Role of the Pharmacist in Antimicrobial Stewardship” published with ASHP, ACCP, and SHEA
  - Participation in NQP Playbook for Antimicrobial Stewardship
  - Developing position statements in stewardship for LTCF (with ASCP) and ED settings

# Results

## 2015-16

- Increase the depth and number of collaborative relationships with other organizations
  - ASHP, ACCP, APhA – writing BPS petition
  - ASCP – pursuing LTCF stewardship program, position statement
  - SHEA, ACCP, ASHP – position statement

# Results

## 2015-16

- Increase the depth and number of collaborative relationships with other organizations
  - SHEA Antibiotic Stewardship Workshops
  - NQF/NQP
  - Pew Charitable Trusts
  - S-FAR

# Results

## 2015-16

- Shape BPS certification in infectious diseases pharmacotherapy into something meaningful
  - Collaborative effort with ACCP, APhA, ASHP
  - Letters of support written by ASM, IDSA, and SHEA
  - Petition written by end of June, reviewed by BODs of all associations, submitted to BPS by end of 2016

# Successes 2015-16

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Antimicrobial Stewardship

- From November 2015 to May 2016: 438 new participants, 171 completed.
- Total current number of participants: 1,378
- Pursuing development of a LTC track, potentially with ASCP
  - Driven by current content, but with LTC live webinars and self-study content added
- Webinar subcommittee: reviews all content to ensure it is up-to-date
  - Significant uptick in activity with LTC track

Special thanks to Ann Connelly of ProCE!

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# Elections

Chair: **Lynn Wardlow**

Vice-Chair: **Scott Bergman**

Board Liaison: David Bearden

Committee Members: Jacqueline Argamany, Melissa Badowski, Curtis Collins, Brandon Dionne, Julie Dumond, Lynne Fehrenbacher, Wai-Ying Lam, Kylie Mueller, Leena Myran, Cynthia Nguyen, Patrick John Scoble

New officers being introduced

INFECTION CONTROL & HOSPITAL EPIDEMIOLOGY

## PRACTICE INSIGHTS

### The Essential Role of Pha

Emily L. Heil, PharmD;<sup>1</sup> Joseph L. Kuti, PharmD;  
the Society of Infectious Diseases Pharmacists (S

The rapid increase in antibiotic resistance in conjunction with a decline in discovery and development of new antibiotics is considered a global health crisis. In response to this escalating problem, President Obama implemented the National Strategy on Combating Antibiotic-Resistant Bacteria<sup>2</sup> through Executive Order 13677. In 3 years, the plan mandates that the Centers for Medicare and Medicaid Services (CMS) will issue new Conditions of Participation (CoP) to advance compliance with the Centers for Disease Control and Prevention (CDC)'s Core Elements of Hospital Antibiotic Stewardship Programs.<sup>2,3</sup>

### Agricultural Applications for Antimicrobials. A Danger to Human Health: An Official Position Statement of the Society of Infectious Diseases Pharmacists

Samuel L. Aitken,<sup>1</sup> Thomas J. Dilworth,<sup>2</sup> Emily L. Heil,<sup>3</sup> and Michael D. Nailor,<sup>4,5,\*</sup>

<sup>1</sup>Division of Pharmacy, The University of Texas MD Anderson Cancer Center, Houston, Texas; <sup>2</sup>Department of Pharmacy, Wheaton Franciscan Healthcare – St. Francis, Milwaukee, Wisconsin; <sup>3</sup>Department of Pharmacy, University of Maryland Medical Center, Baltimore, Maryland; <sup>4</sup>Department of Pharmacy Services, Hartford Hospital, Hartford, Connecticut; <sup>5</sup>Department of Pharmacy Practice, University of Connecticut, Storrs, Connecticut

The use of antibiotics in agriculture, particularly in food-producing animals, is pervasive and represents the overwhelming majority of antibiotic use worldwide. The link between antibiotic use in animals and antibiotic resistance in humans is unequivocal. Transmission can occur by ingesting undercooked meats harboring resistant bacteria, by direct contact of animals by animal handlers, and by various other means. Antibiotics used in aquaculture and antifungals used in horticulture are also an evolving threat to human health. Regulations aimed at decreasing the amount of antibiotics used in food production to limit the development of antibiotic resistance have recently been implemented.

DISEASES PHARMACISTS

# Political Advocacy

## Antibiotic Stewardship in Acute Care:

### Core Element 3: Drug Expertise

Dedicated staff with demonstrated drug expertise is critical to the success of antibiotic stewardship. Appointing a pharmacist leader to partner with the antibiotic stewardship program leader provides the expertise and accountability needed for a high-quality program.

- A pharmacist leader with expertise in antibiotic use is identified and is responsible for partnering with the antibiotic stewardship physician leader or physician champion to improve antibiotic use. Published studies and guidelines have recommended pharmacists with training in infectious diseases as effective ASP pharmacy leaders.
- Criteria for a pharmacy leader should include expertise in antibiotic use, training in stewardship, leadership skills, respect from peers, and good team skills.

# Research

- Submitted calls for grant applications
  - SIDP/BioMerieux Research Award
    - Antimicrobial Stewardship and Microbial Diagnostics (\$20,000)
  - SIDP/Alere Research Award
    - Rapid Diagnostics and Point-of-Care Testing (\$10,000)
  - SIDP New Investigator Award
    - Up to 2 \$10,000 awards

# 2016 SIDP/BioMerieux Research Award

## Antimicrobial Stewardship and Microbial Diagnostics Grant

Funding: \$20,000 (7 applicants)

The purpose of this grant is to solicit research proposals from SIDP members who practices in infectious diseases (ID) and/or medical microbiology. The candidate must be a US citizen, or permanent resident of the US, and hold a PharmD degree. Applications should consist of research projects pertaining to the treatment of ID, specifically in the area of antimicrobial stewardship, antimicrobial susceptibility testing, microbial detection and identification, or biomarkers.

Grantees will be judged according to the scientific merit and feasibility of the research proposal; the strength and experience of the candidate; and the quality of the research environment. If none of the applications are deemed suitable for the Grant, then none will be awarded for the year of 2016.

## Title

*“The effect of clinically meaningful concentrations of anti-pseudomonal beta-lactam antibiotics on time to detection and organism growth curves in BD BACTEC™ plus Aerobic/F and BacT/ALERT® FA plus blood culture bottles”*

SOCIETY OF INFECTIOUS  
DISEASES PHARMACISTS

# 2016 SIDP/Alere Research Award

## Rapid Diagnostics and Point-of-Care Testing

Funding: \$10,000 (3 applicants)

The purpose of this grant is to solicit research proposals from SIDP members who practices in infectious diseases and/or medical microbiology. The candidate must be a US citizen, or permanent resident of the US, and hold a PharmD degree. Applications should consist of research projects pertaining to rapid diagnostics and point-of-care testing to enhance prudent antimicrobial use and patient outcomes.

Grantees will be judged according to the scientific merit and feasibility of the research proposal; the strength and experience of the candidate; and the quality of the research environment. If none of the applications are deemed suitable for the Grant, then none will be awarded for the year of 2016.

# 2016 Young Investigator Research Award

Funding: \$10,000 (up to 2 grantees)

The purpose of this grant is to solicit research proposals from SIDP members who qualify as young investigators [ $\leq 5$  years from completion of their terminal training (e.g., residency, fellowship, graduate degree)]. The primary purpose of the research award is to provide funding for research projects that will contribute to the further development of the principal investigator's research career and improve their competitiveness for future extramural funding. Favorable consideration will be given to research proposals which focus on current pharmacotherapy issues surrounding the prevention and management of infectious diseases.

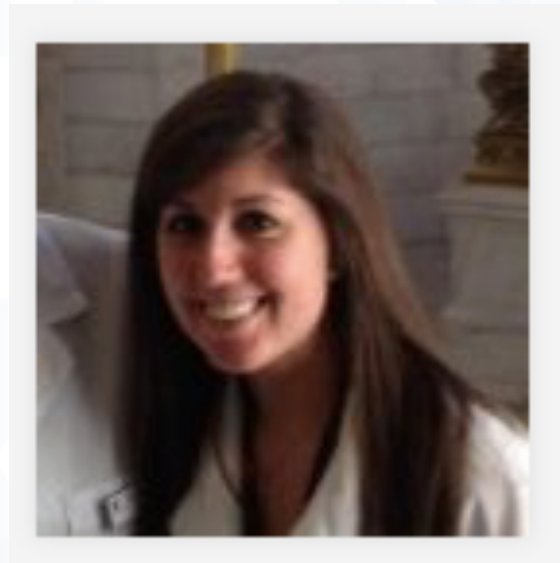

Grantees will be judged according to the scientific merit and feasibility of the research proposal; the strength and experience of the candidate; and the quality of the research environment. If none of the applications are deemed suitable for the Grant, then none will be awarded for the year of 2016.

# 2016 Gita Patel Best Practice Achievement Award

The “Gita Patel Best Practice Recognition Award” is awarded to a pharmacist with exemplary skills as a practitioner and educator who demonstrated expertise in infectious disease pharmacy practice, as exemplified by:

- (a) maintenance of an active clinical practice in infectious diseases pharmacy;
- (b) outstanding capabilities as a practitioner;
- (c) leader in development and implementation of infectious diseases pharmacotherapy program or intervention demonstrated to provide benefit to the treatment of patients with infection.

*Preference is given to pharmacists providing patient care in the community setting and to those that do not receive salary support dedicated to research. Previous formal infectious disease training is not a requirement.*

Free advice: when emailing the chair of Admissions don't start with "Hey [Name]"  
Other tips for emailing profs:

#### How to Email Your Professor (without being annoy

Every semester, I see the tweets and Facebook posts  
My professor friends, they are annoyed. Their student  
do not know how to write emails...
